Instructors: Dina Ueoka --- HDOT
Pratt Kinimaka --- HDOT
Contact: Juli Kobayashi at 956-9006, 956-8851 Fax or juli@wiliki.eng.hawaii.edu
Deadline to register is April 9, 1999

DESCRIPTION

The Highways Division is considering the acquisition of the American Association of State Highways and Transportation Officials (AASHTO) software for the purpose of the Highways Construction Documentation requirement. Members of the AASHTO TRNS*PORT Task Force will be in Honolulu to showcase their TRNS*PORT product package. If implementation of SiteManager is conducted it will significantly change the process for managing and operating your construction projects. Therefore, your attendance is strongly encouraged.

The SiteManager software, one of eight modules, requires that data be entered only once, thus reducing the paperwork load for construction project managers. It provides the following integrated functions: field-based data collection using inspector's daily work reports, complete administration of contract records, project-oriented civil rights monitoring and material management. Other modules featured in AASHTO's presentation will include the Proposal & Estimates System (PES), Letting & Award System (LAS), Electronic Bidding (Expedite & Bid Express), and Decision Support System (BAMS/DSS).

TRNS*PORT Presentation Agenda

Thursday, April 15, 1999

- 8:30 a.m. SiteManager System (Discussion & Demo)
- 10:00 a.m. Coffee Break
- 10:15 a.m. SiteManager System (Continued)
