

Roadview 6 & Roadview Explorer

DESCRIPTION:

The Hawaii Department of Transportation – Highways Planning Survey Section and Mandli Communications, in cooperation with Hawaii LTAP and FHWA, is offering a free, one-day hands-on workshop on the application and use of the photolog and inventory software packages; Roadview Workstation and Roadview Explorer. This workshop will walk the participant through accessing and utilizing thousands of miles of digital road photolog images and data collected since 2001. The workshop does not require prior training other than the participant should be familiar with computers and Windows based software.

TOPICS:

- Roadview Explorer and Roadview Workstation
- Basic photolog searching and viewing.
- Printing/saving/exporting photolog images.
- Querying and graphing inventory and pavement data.
- Creating a personal inventory database.
- On-screen image measurement
- Integrating inventory data with your projects
- Curve & Grade and Crossfall readings.

TARGET AUDIENCE:

This workshop is intended for anyone interested in using photologs to assist in day to day tasks. Potential participants include the managers and staff of the DOT, roadway planning and design, pavement management engineers, highway maintenance and anybody who deals with roadway conditions or needs information on roadside features.

INSTRUCTORS:

Larry Mattke

Senior GIS Engineer
Mandli Communications, Inc.

Ben Redding

Hawaii Project Manager
Mandli Communications, Inc.

NOTE: *Food and beverages are **NOT ALLOWED** in the Don Kim Multi-Media Lab.*
