Course Description:

The program is intended for owners, safety managers, supervisors, and workers. It is focused directly on the hazards and situations that roadway construction workers face every day, from work zones to night work.

Topics:

This course addresses 11 key construction work zone related safety and health topics:

- Introduction to OSHA
- Electrical Safety
- Roadway Work Zones
- Excavations and Trenching
- Personal Protective Equipment
- Confined Spaces
- Night Work
- Fall Prevention & Protection
- Mechanized Equipment
- Occupational Health
- Collisions

This FREE training is provided by the Federal Highway Administration.

Speaker:

Jerry Teeler

Jerry has held the position of Director of Safety and Health for the American Road and Transportation Builders Association (ARTBA) since February of 2004. Jerry currently conducts roadway safety courses throughout the United States and at various international conferences. Jerry’s professional safety career began in the US Coast Guard. Prior to joining ARTBA, Jerry managed safety programs from Ohio to Mexico for various contractors including Rogers Group, Inc., Fluor Daniel, Morrison Knudsen, M.W. Kellogg, and J.A. Jones. Throughout Jerry’s 22 year safety career he’s been involved in a wide diversity of projects including petrochemical, commercial high rises, multifamily dwellings, automobile manufacturing, Federal Reserve Bank renovations, nuclear power plant, and roadway construction.
