Proposed presentation by Sean Hiraoka, Hawaii DOT:

“I will talk briefly about the Traffic Accident Records System (TARS) and then focus on the Highway Safety Improvement Program (HSIP). As far as the HSIP portion, I would like to talk more in detail about the High Risk Rural Roads Program (HRRR) and also how the SHSP relates to the HSIP & HRRR. I want to keep the issues fresh and keep encouraging the Counties to participate. I also want to hear what kind of problems the Counties are having and try to help address the barriers.”

Proposed presentation by Wayne Kaneshiro of FHWA:

“The 9 Safety Countermeasures that work,” includes traffic engineering items. Also, the new safety manual and 2009 MUTCD”
