* Training also available on Oahu July 12-13 & 14-15, 2010.
Course Description:

Open to anyone in the construction field, road/highway construction owners, construction foremen/supervisors, civil engineers, and safety managers.

This course focuses directly on the hazards and situations that roadway construction workers face every day. From work zones to night work, this training sets the standard for the entire industry.

Topics:

This course addresses 11 key construction work zone related safety and health topics:

- Introduction to OSHA
- Electrical Safety
- Roadway Work Zones
- Excavations and Trenching
- Personal Protective Equipment
- Confined Spaces
- Night Work
- Fall Prevention & Protection
- Mechanized Equipment
- Occupational Health
- Collisions

This training is provided by the Federal Highway Administration and the Hawai’i Local Technical Assistance Program

Speaker:

SeaRay Beltran

SeaRay is the Senior Safety and Health Specialist for the County of Maui since May of 2006. SeaRay currently conducts site inspections on all county projects and facilities including construction projects. SeaRay also provides OSHA, NFPA, DOT, MUTCD and EPA training for the County of Maui. SeaRay’s professional career began when he was a US Naval Diving Instructor while stationed on US Naval Base Subic Bay, Philippines.

Prior to joining the County of Maui, SeaRay did contract work for both the US Army Corps of Engineers and the US Air Force Safety Center on Guam US bases. Throughout SeaRay’s 25 safety career years have been involved in a wide diversity of projects including commercial construction high rises, multi-family dwellings, road and bridge construction, ships and harbor inspections, and insurance fatality investigations. SeaRay is also an OSHA Training Institute Center Instructor for California State University Dominguez Hills.
